EDUCATION

- **Bachelor of Technology** - Electrical & Electronics Engineering 2021-2025
Sri Venkateswara College of Engineering, Tirupati | **CGPA: 9.31/10**
- **Board of Intermediate Education** -MPC 2019-2021
Amaravathi Junior College, Venkatagiri | **CGPA: 9.5/10**
- **Board of Secondary Education** 2019
Narayana High School, Venkatagiri | **CGPA: 9.3/10**

PROFILE SUMMARY

Fresher Data Analyst with hands-on experience in SQL, Python (Pandas), and Power BI. Built end-to-end analytics pipelines on real-world datasets (100K+ records). Skilled in RFM segmentation, DAX, and executive dashboard design. Seeking Data Analyst or Junior Data Engineer roles where I can drive decisions through data.

SKILLS

- **Advanced Excel:** Pivot Tables, VLOOKUP/XLOOKUP, Power Query, Conditional Formatting, Data Validation, Charts & Dashboards, MIS Reporting
- **Programming:** Python (NumPy, Pandas), SQL, HTML
- **Data & BI Tools:** Power BI, MySQL, MS Office, Google Cloud Platform (GCP), GitHub, VS Code, Canva
- **Soft Skills:** Communication, Teamwork, Self-motivation, Adaptability, Time Management

PROJECTS

Sales Performance Tracker [Excel | Data Analysis | Dashboarding]

- Improved sales visibility across **9,994 records** using **Excel (Pivot Tables, slicers)** to track KPIs like revenue and profit.
- Identified top-performing regions and categories using **Excel charts & conditional formatting**, improving decision clarity.
- Reduced manual reporting effort by **50%** using **interactive dashboard features** for dynamic filtering and trend analysis..

Employee Attrition Analyser [SQL | Python (Pandas, Seaborn) | Power BI | Excel]

- Analysed **1,470 employee records** to identify attrition drivers using SQL (CASE WHEN), revealing **3× higher attrition in overtime employees**.
- Increased HR insight accuracy by **40%** through feature engineering using **Pandas (salary bands, tenure groups)** and multi-dimensional analysis.
- Delivered actionable retention insights via **3-page dashboard** using **Power BI (DAX, KPI metrics)** for HR decision-making.

AI-Powered E-commerce Analytics Pipeline [Python | SQL | Pandas | Power BI | Excel | Prophet]

- Analysed **100K+ e-commerce orders across 9 tables** using SQL (CTEs, joins) and performed **RFM segmentation** to classify customers (Champions, At-Risk, Lost).
- Improved revenue planning by forecasting **30-day sales trends** using **Python (Prophet, Pandas)** with engineered CLV and recency features.
- Enabled secure regional decision-making across **4 dashboard views** using **Power BI (DAX, RLS, drill-through)** for business stakeholders.

CERTIFICATIONS & ACHIEVEMENTS

- Built **solar-powered wireless EV charging station with RFID** authentication as **B.Tech final year project**.
- **Coursera**-Crash Course on Python(2024)
- Participated in **Google Arcade 2024 (GCP)** — Completed hands-on labs; received **Google Goodies Hamper**
- **Linkedin Learning**-GitHub Professional Certificate(2024)
- Won **₹1L prize** at **Smart India Hackathon 2022** (Top 500+ teams) for drought management solution— **Drought Data Researcher**
- **Presented** a business idea at the **National Conference for Creation and Management of Startups** at SV University, Tirupati — Received **private investment offer** as **Team Lead**
